### “Why Do We Have Baby Teeth” Pre-Test

1. Why do we have baby teeth?

- a. Because only baby teeth fit into a child’s mouth.
- b. Because we don’t smile or eat when we are little.

2. Are baby teeth important?

- a. No. We just lose them anyway.
- b. Yes. They help us smile, eat, and talk.

3. When do we get ALL of our adult, or permanent, teeth?

- a. When we are 3 to 4 years old.
- b. When we are 10 to 12 years old.

Number Correct: \_\_\_\_\_
